

ENVIRONMENTAL POLICY

Policy Statement

Lee's Transport Management and Staff are committed to the protection of the environment, prevention of pollution, and being an industry leader in minimising the impact of its processes and activities on the environment. We will control our business processes to ensure environmental sustainability in all that we do.

Objectives

We are committed and will strive to:

- Minimise waste by evaluating operations and ensuring they are as efficient as possible
- Develop and implement procedures, processes and instructions to ensure protection of the environment

As part of our systems and processes we will:

- Establish environmental objectives and measurable targets aimed at the protection of the environment
- Minimise toxic emissions through the selection and use of its fleet and the source of its power equipment
- Actively promote recycling both internally and amongst its customer and suppliers
- Continually improve our Environmental Management System to enhance environmental performance
- Compliance with all environmental regulations and other requirements necessary
- Ensure consultation and cooperation between management, employees, customers and other interested parties in relation to environmental issues
- Provide, as appropriate, employee's, contractors and customers with regular information, instruction, training and supervision to protection of the environment
- Apply a *Plan, Do, Check, Act* methodology to our businesses operations and systems
- Ensure our Environmental Management Systems is conformant and certified to ISO 14001:2015
- Conduct audits of key processes within the business as part of our continual improvement process

Korey Lee

General Manager
